8+	Full	UK
Years in Data	Stack Expertise	Remote & On-site

— FULL ANALYTICS STACK — UK-BASED, REMOTE-FIRST — SENIOR EXPERIENCE — FREELANCE & CONTRACT

WHAT I DO

Analytics expertise, end to end

From the first data source through to the report on your screen — I handle every stage of the analytics lifecycle without the hand-holding.

Business Intelligence

Interactive dashboards and reports in Power BI and Tableau — built around what decision-makers actually need to see.

Learn more →

Data Warehousing

Clean data models and warehouse architecture that turn scattered sources into a reliable foundation for analysis.

Learn more →

Analytics Consultancy

Strategic input on tooling, pipelines, and reporting design — no jargon, no generic frameworks, just what works for your organisation.
